# Montana SNOTEL Snow Depth

**Provisional Data  
Subject to Revision**

\* Data unavailable at time of posting or snow depth sensor not available at site  
\*\* A "data spike" is a gain or loss of more than 100 inches in 1 day

Prepared by the  
USDA/NRCS National Water and Climate Center  
Portland, Oregon  
<http://www.wcc.nrcs.usda.gov/gis/>

*Automated snow depth measurements are known to occasionally read spuriously large during precipitation events. Snow depth is also difficult to accurately measure at near-snow free conditions; data should be used with caution.*
